- Maritime/Ports
- Renewable Energy
- Tax/Finance
- Telecommunications
- Transportation/Infrastructure

## About Us

Twenty-First Century Group (TFCG) was founded in 1997 by former Congressman Jack Fields, who represented the State of Texas in the United States House of Representatives for 16 years.

We are a bipartisan firm offering strategic advice and planning to clients who are dealing with issues before the U.S. House of Representatives, the U.S. Senate, and the Executive Branch. Over the years, our diverse clientele has included: Fortune 500 companies, ports, municipalities, small businesses, start-up companies, and trade associations. We have helped our clients find legislative fixes and secure millions of dollars in funding for wide-ranging projects.

## Experience

At TFCG, we assist clients in navigating the intricate federal budgetary process to achieve tangible outcomes such as appropriated funds, report language, and community project funding. We conduct private, specialized staff briefings on various policy areas, build diverse coalitions with Members of Congress and organizations to advance legislative goals, and help disseminate and educate Congressional offices on emerging issues.
